Nurserymen, Florists and Dealers U.S. Department of Agriculture

PECANS - ROSES - FRUITS  
SHADE TREES

Arp Nursery Company

YOUR WHOLESALE GROWER

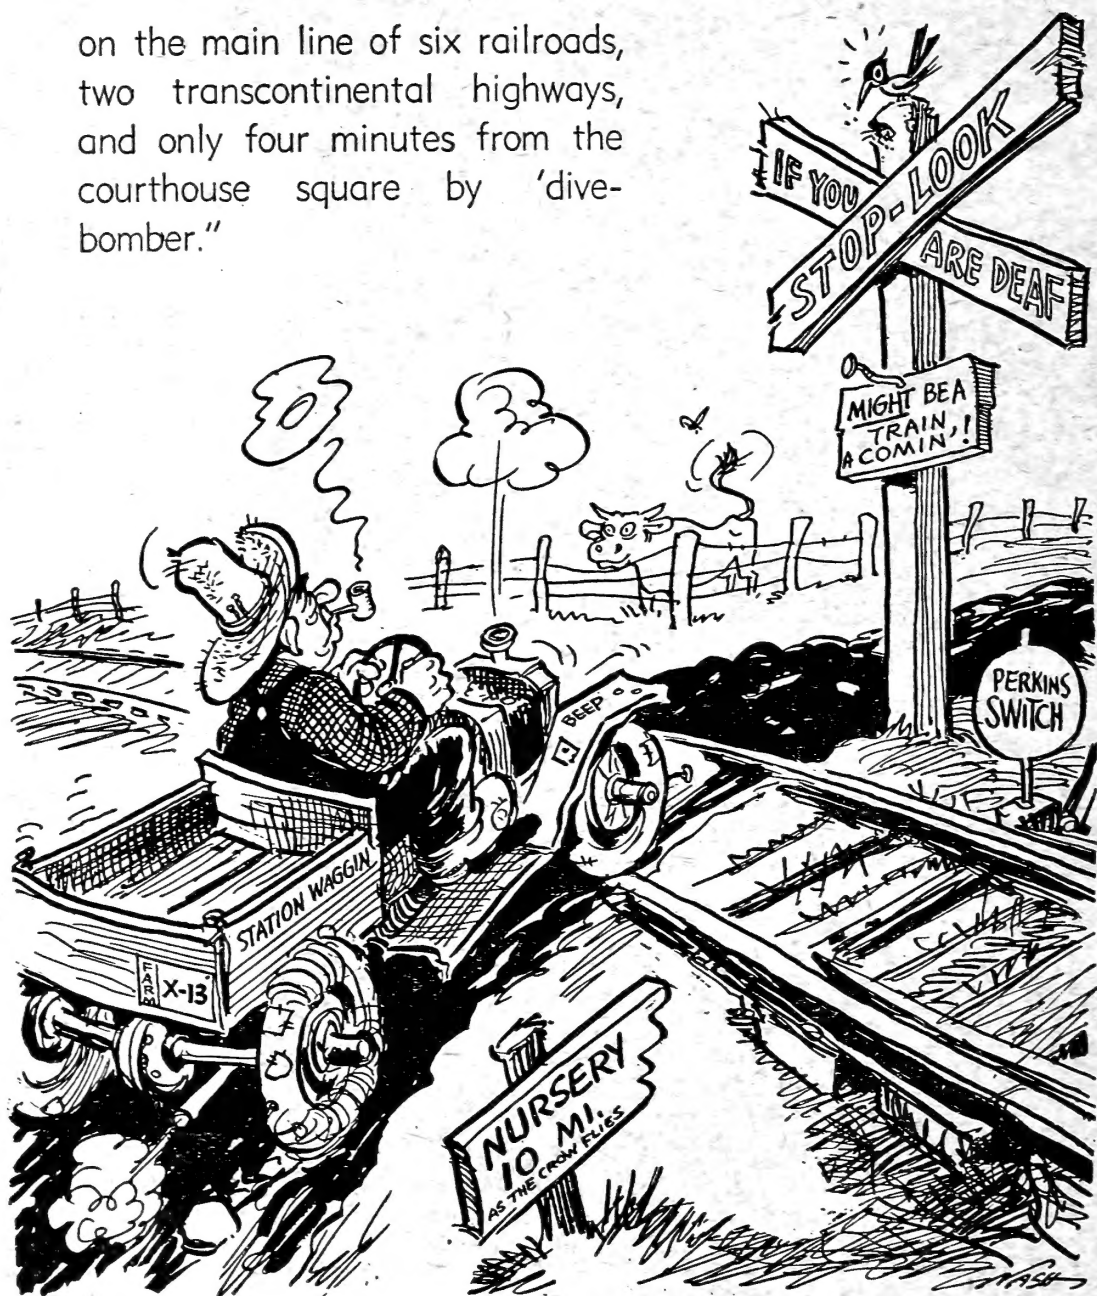

Tyler, Texas

~~~~~ "Home of Better Rooted Trees"

# "Located

on the main line of six railroads,  
two transcontinental highways,  
and only four minutes from the  
courthouse square by 'dive-  
bomber."

# Return Engagement

This is it!

Remember three years ago when Arp Nursery came out with crazy cartoons on general nursery practices—planting, cultivating, digging, packing, shipping—Well, sir, a lot of you folks wrote kind letters encouraging use of fun in advertising good pecans, roses and fruits.

Nurserymen do a lot of things that are worth a laugh but we're too busy and worried to notice them. Suppose, now, you sit back, remove your nose from the grindstone a few minutes, admit that in spite of the grave world conflict some of your fellowmen are pretty decent people, and look through this booklet.

But don't forget, the purpose is to sell pecan, fruit, and rose nursery stock for national nourishment of body and mind as well as for individual benefit. Call on Arp Nursery sometime soon. Here the customer has a good chance to make his point before the dice are passed.

Certainly no offense is intended. Truth is, almost everyone in our little industry enjoys a neat trick now and then.

Some quotations may seem familiar to you. To claim originality would be gross plagiarism. On the other hand, any similarity to your own catalogs, living or dead, is purely coincidental.

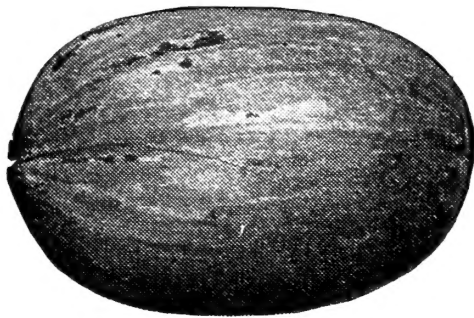

—Editor. Oct. 1, 1942.

# "Tree Stretcher

our 'Secret Weapon' is a unique device  
assuring customers of full grade as ad-  
vertised."

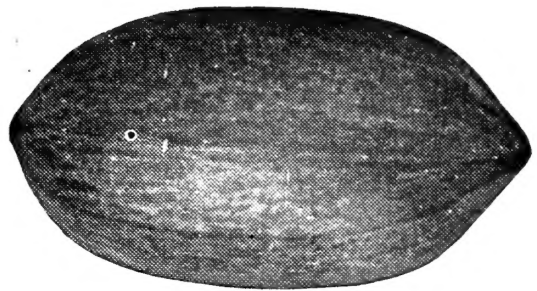

# PECAN TREES

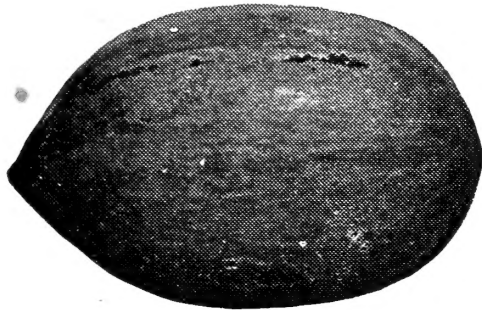

STUART

Stuart is the leading pecan, suited to more sections of the country than any variety. The nuts are large to very large, usually well filled, medium to heavy bearers.

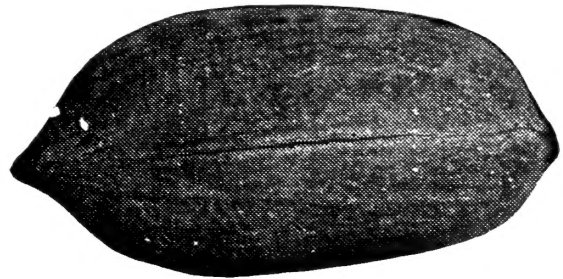

DELMAS

Nuts large, shell moderately thin, kernel plump, heavy bearer. Tree is vigorous with beautiful foliage.

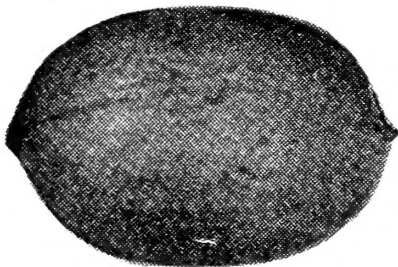

SUCCESS

The Success is a first class pecan. Nuts are large to medium, thin shell cracks well. The kernel is plump and heavy, excellent flavor; strong growing tree, early bearer.

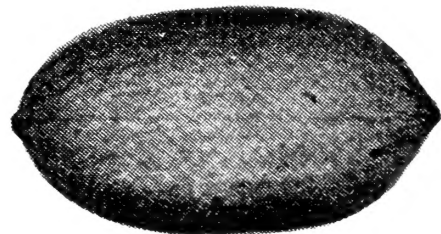

SCHLEY

Very thin shell nut, large, plump kernel, fine flavor; rapid growing tree. Nuts sell for highest market price, but not quite so prolific as some of the other varieties.

MONEYMAKER

Prolific, medium size nuts, adapted to northern fringe of southern pecan area.

MOORE

Fast growing, early maturing medium size nut, very thin shell.

—Continued on Page 5—

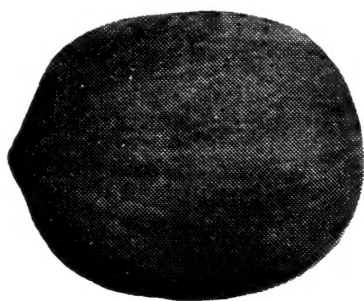

# "A 100% Sellout

of every item each season encourages us to increase production and allows economically low price per unit. Occasionally broken and discarded trees accumulate and are burned.

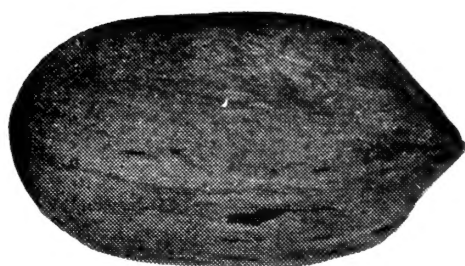

# PECAN TREES

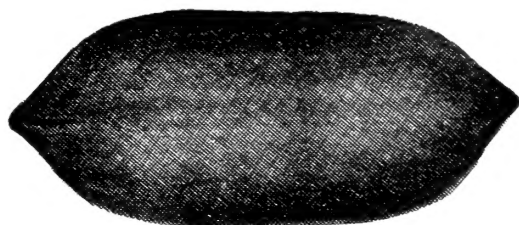

BURKETT

One of the favorites of West Texas, trees very healthy and regular bearers, medium size nuts, well filled and good flavor.

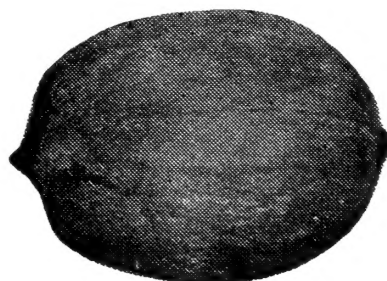

TEXAS PROLIFIC

Nuts large, shell of medium thickness, kernel plump, rich and sweet.

WESTERN SCHLEY

Large, long fruit, suitable in higher and drier localities than Eastern Schley.

HALBERT

One of the most prolific of all varieties, very thin shell, excellent flavor.
